EBY’s culture of craftsmanship and innovation is a family tradition that has been carefully cultivated over three generations. Born in 1938 as a wood livestock truck-body manufacturer, quality and customization quickly emerged as signatures of the young company. As the product line expanded into trailers and semi-trailers, ingenuity and forward-thinking distinguished the next generation as it helped revolutionize the industry with all-aluminum construction.

Now in its third generation as a family-run business, this heritage of innovation is firmly welded into its DNA. While modern manufacturing capabilities—such as computer-aided engineering and precision robotics—help provide customers with the most durable, longest-lasting product, it’s the people behind the processes that make an EBY trailer really shine.

As a heritage of innovation is built into every trailer, a family of sales, service, design, engineering, manufacturing and support stands behind it… and EBY welcomes you into the family.
Affordable to own and economical to pull

Maverick LS Livestock trailers deliver a new level of affordability without sacrificing quality. Engineered with many of the same components and construction qualities as our commercial models, the Maverick LS bundles EBY’s legendary quality into an affordable package. Maverick LS provides everything needed in a standard production model without the frills.

- Compact sizes for easier handling
- Gooseneck and bumper-pull models available
- Long-lasting, aluminum diamond-plate floor

MAVERICK LS BUMPER-PULL

Legendary trailer innovations designed in a small package

EBY’s all-aluminum, smooth livestock box is ideal for the safe and easy transport of small animals in the bed of a pick-up. Boxes are available in three standard lengths to accommodate long- or short-bed pick-ups. Lightweight, easy to wash, and virtually maintenance free, an EBY livestock box will quickly become your essential travel companion when transporting small livestock.

**LIVESTOCK BOXES**

*Standard Sizes:*

- Lengths: 5’, 6’ and 8’
- Width: 48”
- Height: 46” (inside)
